IN THE STATE OF TEXAS

WHY **FLAMCO**

Established in 1923, Flamco brings quality roofing products with reliability to customers throughout the United States. State-of-the-art plants in Texas and Florida manufacture regionally-specific residential building products, enabling us to meet the individual and unique product requirements of the different markets we serve. Flamco focuses on the quality of each, and every product manufactured. We are committed to exceptional customer service and providing our customers products when and where they are needed.

FLAMCO'S TILE ROOF ACCESSORIES OFFER

FLASHINGS SPECIFIC FOR **TILE ROOFS**

Proper flashing helps prevent water damage and increases airflow and ventilation extending the life of your tile roof.

AESTHETIC APPEAL

Aesthetically appealing flashing gives your roof a clean, finished look that enhances the overall appearance.

DURABLE METAL CONSTRUCTION

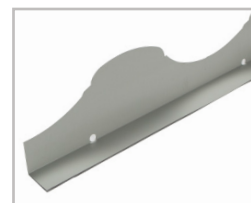

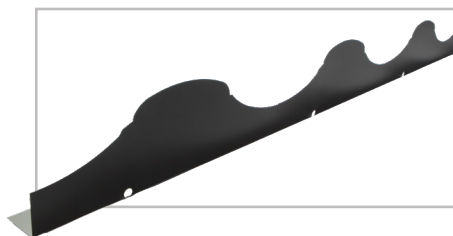

Tile flashings is made from high quality metal to withstand harsh weather and help maintain your roof's integrity.

BIRDSTOP CLOSURE

- Contoured to match the popular Tejas "S" tile profile
- Designed to prevent birds or other wildlife from intruding under the tile roof
- Provides rise for the first row of tile
- Available in 10ft lengths
- Weep holes promote the drainage of any moisture under the tile

TEJAS "S" BIRDSTOP

RISER

- Provides rise for the first row to tile
- Designed to work with most flat tile roofs
- Weep holes promote the drainage of any moisture under the tile

BSRISERFW

RIBBED TILE VALLEY

- Premium Tile valley profile specifically designed for valley drainage on a tile roof
- Tile Valley is designed to channel water off two intersecting roof slopes and into the gutter system
- 3 rib and 5 rib options available; High rib option for steeper slopes

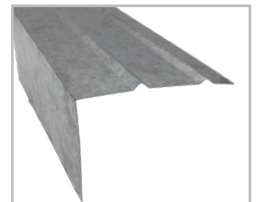

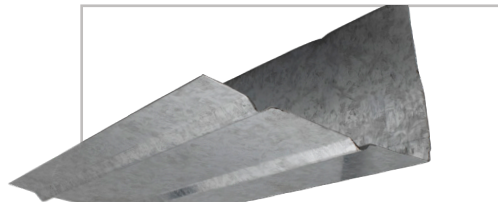

T25V3HFW / T26V5HFW / TV2629

TILE PAN FLASHING

- Provides superior water flow helping to prevent debris accumulation
- Directs water flow into the roof system
- A flat edge allows sealing and fastening outside the water flow area
- 26 gauge galvanized steel for corrosion-resistant, long-term durability
